

Group Project 2

P. McDonald

November 17, 2016

Your assignment is to reply to the following prompts:

- Where is the worst place in the US to have a heart attack?
- Where is the best place in the US to have a heart attack?

Here is the catch: your answer should be supported by data that can be found at the following site:

<https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/HospitalQualityInits/HospitalCompare.html>

You are free to supplement the data found at the site with data found elsewhere, but your arguments should rest primarily on signal from the above site.

You are to prepare a joint pdf documenting your findings and a short oral presentation.

The project is due on the last day of class.
